

	<p style="text-align: center;">St Elizabeth's Catholic Voluntary Academy</p> <p style="text-align: center;">Nut Aware Policy</p>	<p>Updated October 2024</p>
---	--	---------------------------------

St Elizabeth's CVA is food allergy aware. Our policy states we are 'nut aware', reflects the efforts we can all (parents and staff) can do to minimise the risk to children with allergies whilst appreciating that we cannot be completely confident that all food items brought in are nut free or that another child has not consumed nuts before coming into school.

There are a considerable number of pupils at our school who have severe food allergies, including allergies that are airborne. The most common of these allergens are peanuts, tree nuts, eggs, fish and shellfish, soy and wheat. The most serious risks in our school are nut allergies which can cause life threatening anaphylactic reactions to some of our pupils.

Aims of this policy

- To provide a safe learning environment for all members of the St Elizabeth's CVA community
- To raise the awareness of all members of the community regarding severe allergies

Management

The Nut Aware policy will be managed by:

- Parents and caregivers being requested **NOT to send food to school that contains nuts** (especially peanuts). This includes all types of nuts, peanut butter, Nutella, Kinder products (such as Beuno) and food containing nuts. This list is for example proposes, it is not an exhaustive list – please refer to the ingredients before putting it in your child's packed lunch. Please also refrain from putting into packed lunches any products that say, "may contain traces of peanuts".
- Our school kitchen and food are already nut free and we do not supply any ingredients in food technology that have nuts or nut derivatives.
- Staff supervising eating at lunchtime.
- Students being encouraged NOT to share food.
- Students being encouraged to wash hands before and after eating.
- Staff training in understanding and dealing with Anaphylaxis (severe allergic reactions) as the need arises.

Promotion

The policy will be promoted by:

- A copy of this policy being issued to all parents and caregivers.
- Staff being informed and provided with training opportunities.
- Publication of this policy on the school website
- Pupils being informed via teachers and support staff
 - about being responsible when eating and handling food both inside and outside of school
 - helping students to understand that foods they can enjoy eating can be also be dangerous to others
 - encouraging students to support their class mates with allergies by eating and handling food responsibly

Risk Assessment regarding Nut Allergy

- Staff will be alert to any obvious signs of nuts being brought in, but they will not inspect all food brought into school.
- If staff do notice a student that has brought in food that contains nuts or nut products these items may be removed and if required an alternative will be provided from the school kitchen

If your child needs a medical risk assessment due to their allergy, please inform us of their allergy and make an appointment to see our SENCO, please bring with you the care plan recommendations letter that your doctor has provided.
